

SKYCITY'S PRESENTATION CENTRE & MODEL SUITE ARE OPENING SOON!

SkyCity's impressive Presentation Centre & Model Suite have been designed to showcase the exclusive architectural style and level of finishes that you can expect at this exquisite condominium from Fortress and MADY in downtown Winnipeg. This experienced partnership is bringing an elevated lifestyle to the city - with shopping and services on the lower levels - including a 25,000 sq. ft. grocery store and 15,000 sq. ft. of amenities, plus a green roof garden on the podium.

The Presentation Centre & Model Suite for SkyCity will be designed by the internationally renowned design team at UNION31 and create a truly compelling destination (see this week's Team Feature for details). Located at 283 Garry Street, the experience will represent a contemporary aesthetic that we believe will set a new standard for luxury in downtown Winnipeg. We are preparing to start construction of the Presentation Centre & Model Suite soon and are scheduled to open later this summer.
